Moain – The Smart Professor Assistant
(معين: مساعد الدكاترة الذكي)

MOAIN

Smart AI Professor Assistant

Team Amin w Shoraqaa (امين وشركاؤوه)

The Problem

01 Professors often have long schedules: between classes, office hours, and research, managing them can be tiring.

02 Rescheduling classes, notifying students, and checking grades often takes longer than the actual decision itself.

03 Professors are often busy and can’t waste valuable teaching time on repetitive tasks

04 The TAs sometimes can’t communicate fast enough with the Professors, hence wasting further valuable professor time.

The Solution - Moain (معين)

- An AI smart assistant that professors can talk to naturally (text or voice).

Moain handles everything:

- Rescheduling or canceling classes.
- Making dashboards for the grades.
- Automatically notifying students via email.
- Tracking lecture progress (what was last covered).
- It supports both Arabic and English

MOAIN
Smart AI Professor Assistant

How it works (Demo Flow)

- Professor sends a message (text or voice).
- AI Router detects intent and sends it to other AI (reschedule, cancel, progress update, grades report, etc.).
- Google Sheets integration updates the schedule.
- Students are notified automatically via email.
- Professor receives instant confirmation.

Target audience

Primary: Professors in universities (time-pressed, need a simple assistant).

Secondary: Teaching assistants, departments managing multiple courses.

Future Expansion: Corporate trainers, schools, private tutors.

Moain’s Edge: Unique Value & Real Impact

- **Natural Communication:** Professors just send a text or voice note — Moain understands both Arabic and English.
- **Real-Time Updates**: Syncs instantly with Google Sheets.
- **Saves Time**: Professors gain back 2–3 hours weekly by avoiding repetitive admin work.
- **Student Clarity**: Automatic student notifications so students never miss updates, boosting class attendance and satisfaction.
- **Future-Ready**: Built to expand into attendance, and analytics, reminders, and so much more.

The Members That Made This Possible

👤 Team Leader

- Amin Tarig Amin – *20220772*

👥 Team Members

- Malak Ahmed Saber – *20220341*

- Malak Ahmed Mohamed – *20221157*

Closing

Thank you

Thank you for giving us your precious time dear Professors!

Moain (معين) empowers professors to focus on what really matters — **teaching and research** — while it takes care of the repetitive tasks.
